Written Test

- It is a quiz on E-learning (<https://elearning.uniud.it>).
The exam will be held in the presence in the Rizzi building (check the room in Esse3)
- Slides, Notes, Books, Laptops, Cell phones, Tablets or other resources (except for calculator) are not allowed.
- The grade of the written test is valid for the academic year of this course (i.e. September 2023)
- Minimum grade to be admitted to the oral discussion: 18

Oral discussion will be focused on topics presented in class and in laboratories

Assignments (optional): the beginning of December 2022 we will assign to you two problems, and you need to solve, write short reports, and share your codes with us. Then we will evaluate them. Based on our evaluation you can get from 0 to 2 extra points for each problem that will be added to your mark obtained in the written test. The assignments can be done in group (maximum 3 students).

A student, who does not pass the oral discussion, must repeat the written test again.
